

Workshop on Psychoanalysis and the Web

The speakers will discuss the concept of freedom, exploring its connection with psychic life and the psychoanalytic experience understood as an emancipatory path towards a condition of freedom. Some clinical reflections will be presented on the concepts of trauma, freedom, temporality and change. The workshop will finally examine the phenomena of identity dissolution encouraged by the web and by the idealization of postmodern thought.

Introduction: Maria Antoncecchi

Chair :Nino Sorce

The pre-congress workshop on Psychoanalysis and the Web
